

*Yearbook of European Law* – now available online!

At the start of 2011, the *Yearbook of European Law* (<http://www.oxfordjournals.org/page/4283/10>) transitioned online under the Oxford Journals model, so is now available both in print and online. Due to its online functionality, content now publishes online ahead of the print volume, and its archives are fully searchable by article title, keywords or author. A selection of articles across the past five volumes has been made freely available online, without any need to register for access.
